

# I44R

## High Performance Impact Crusher

The McCloskey I44R recirculating impactor combines the productivity of our 44" impactor with the versatility of a full screening and recirculating system, allowing operators to produce a crushed and screened final product with one machine. The combination of the impactor with the High Energy Screenbox and a recirculating conveyor deliver maximum productivity and unmatched portability. Alternatively, the I44R's return conveyor can be radialed to the side to stockpile rather than feeding back into the hopper.

The I44R is the perfect showcase of a mobile contractor crushing system. Compact and portable, it provides the level of production required to complete the project rapidly.

The I44R's versatility makes it ideal for a variety of applications worldwide.

### RECIRCULATION

Allows operators to produce a crushed and screened final product with one machine.

### CONVEYOR

Main conveyor, delivers high stockpile capacity. Lowers and raises hydraulically and is easily removable for maintenance.

### SCREEN

5' x 10' High Energy Screenbox has user-friendly quick release pin & wedge system for faster screen change.

### FEEDER

Folding Hardox®-lined hopper mounted over vibrating feeder with integral pre-screen. Feeder rate can be regulated manually or automatically by the load.

### CRUSHER PRE-SCREEN

Optional crusher pre-screen maximizes crusher efficiency and creates additional product.

Engine	350Hp
Transport Height	3.40m (11'-2")
Transport Length	15.348m (50'-4")
Transport Width	3.135m (10'-3")
Feed Opening	1150mm x 800mm
Weight*	48,535 kg (107,00 lbs)
